Functional explanation

record of the staff visit the website of the integrity of the process of rapid statistics for each employee view of the frequency of Web site. Immediately understand the Internet habits of employees, nor can the sector, the statistics group. Browse the Web through the course record with the frequency statistics, so that managers can more quickly master the state employees go to work.

Examples

staff is always busy all day sitting in brain power, why can not improve the performance of the company? I often see staff available on the Internet to find information on whether or irrelevant information to see? MISKeeper so that the "record of the Web site" and "Web site statistics" function to help you through the complete records of all employees browsing history,

so that Internet stocks, go to auction all have clear evidence. Elimination of factors that go to work, raise working efficiency and performance of the company.
