- Model Specifications

2006/09/01 到 2006/09/19 之間的
應用程式焦點時間統計 (前十大)

number of reference chart to describe: the above chart for the actual operation of a company's business in September of 2006 the focus of the program tables, the business includes 22 computers, standard time for the user to use a keyboard or mouse point The election application window and made the focus of the accumulated time increase.

at this time records within 12 working days, the 22 management by using the MSN instant messaging computer time understanding about the sum of 227 hours, depending on if the business sector, the average monthly salary of 30,000 come basis, the hourly rate 180 yuan for the company so it spent a total of half a $227 \times 180 = 40860$ yuan times the cost of the use of MSN in the last month will be about 454 hours spent 80,000 yuan, a year to spend about 5448 hours the time the cost of 960,000 yuan MSN in the use of communications.

statistics from the table to be related information, if one could be years [5448 hours months](#) transfer of resources to the business of the company's business matters related to work. I would like to ask your company's performance can increase the number?

2. MISKeeper can save money for you

in-house software and hardware equipment for the company's profit-making tool, if the company is purchasing the equipment, you can produce from the schedule, as well as monthly production capacity in the calculation that the production of power equipment, computer software applications do? < / p>

general of the company will build or procurement staff needed information software such as Windows Office (Outlook, Excel, PowerPoint, Word ...), AutoCAD, Windows operating system, ERP, CRM, Photoshop, PhotoImpact, Dr.ey, PowerPCB , Norton ... such as software. However, from the table, we can see in the company's business sector, Windows OFFICE package of software, the unit staff to identify only the use of Outlook, Excel, Word, such as no more than three sets of software.

If this is the vast majority of the company's status, or MIS boss for [He's Office to a full set of procurement to all employees?](#) should only need to be prepared to buy the actual number of sets of software used Can be.

3. MISKeeper is a kind of insurance

The following section of the software business records from Union(BSA)

[BSA - working to fight the economy, 80 per cent of employees thought the "alternative way of making money" and to report piracy, and 70 office workers in the air!!](#)

not economic boom, workers shrink large purse, Besides the death of

a fixed salary, is not there is the thought of other types of another way of making money to fight future economy? 1111 Human Bank for white-collar workers into the conduct of a "white-collar workers making money other types of network surveys," found that nearly 80 (78.61%) office workers have thought about another way of making money types, the investigation also found that when office workers That if there is to report the high tens of millions of pirated Fund Award, as much as 65.67 percent of the respondents are ready to make trouble with the heart!

the 1111 survey by the Bank on Human March 7 to 17 during the day for white-collar workers nationwide investigation into the conduct of an effective recovery of the samples were up to 1206, with 95 percent confidence level of error of plus or minus 2.8 percent. Piracy report "irrefutable evidence", "employee satisfaction degree" is an important cause, only 35% of employees determining the company never dare to use legitimate, [if the company was informed that the use of piracy, up to 86% would like to report](#) , future report Sources from 70 employees to leave the post called on business owners face up to software intellectual property rights.

shown in the table below, the network audit MISKeeper equipment in the shortest possible period of time the statistics of the rest of the market system software assets (the price could be as high as a million) by not give you the software enterprise value of the quasi-induced statistics . MISKeeper through the resulting statements "to install the software business unit of the total value of sub-types", can be seen in the company after deducting the existing number of software copyright after the remaining 70 sets of copyright-free software, the market price up to 620,000 yuan, if the report was [compensation 100 times the amount of the Fund is 62,000,000 yuan](#) .
